

W-77 / W-71

spray guns

ANEST IWATA's W77 and W71 series spray guns have been used by coating professionals for over twenty-five years worldwide for industrial/manufacturing applications.

The W-77 is a well-balanced general purpose spray gun with built-in air adjusting valve suitable for medium to large sized painting applications within a wide variety of industries. The W-77 is available in pressure feed, siphon feed and gravity feed configurations.

W-77

W-71

The W-71 is a durable lightweight spray gun with a built-in air adjustment valve. It is very versatile and available in pressure feed, siphon feed and gravity feed configurations. Suitable for small to medium sized painting applications in a wide variety of industries.

W-77 / W-71 series spray guns

TECHNICAL SPECIFICATIONS AND DESCRIPTIONS

W-77 series specifications

Model	Item No.	Cross Reference	Type of Feed	Nozzle Size	Pattern Width (in.)	PSI	CFM	Fluid Output ml/min
W77-0	3060	217-700	Pressure	1.2	17.5	50	15.2	480
W77-02	3063	-	Pressure	1.2	15.7	50	14.8	480
W77-03	3065	217-701	Pressure	1.4	17.5	50	15.2	480
W77-11S	3070	217-705	Siphon	1.4	10.5	50	10.2	255
