

SATAminijet® 4400 B

Spray Guns | Cup Systems | Breathing Protection | Air Filtration | Accessories

For high precision work

## Features of the SATAmijet 4400 B:

VOC-compliant atomization technology - optionally available as HVLP low pressure or RP optimized high pressure technology

Innovative and versatile digital retrofit air micrometer

Perfectly suitable for the use of RPS disposable cups

Cup connection for quick and clean cup changes as well as easy cleaning

For the convenient identification of your spray gun

Top quality is not enough - we guarantee it: for three years

SATAmijet 4400 B – now all RPS disposable cups fit on the large QCC cup connection – no adapter is required

The SATAmijet 4400 B is perfectly suitable for application on smaller surfaces – in both craft and industry

# SATAminijet 4400 B - Brilliance in Miniature

The SATAminijet 4400 B is the perfect compact spray gun if you are looking for superb finishes on areas of difficult access. The special SR nozzles are perfectly suitable for spot repairs on vehicles. It goes without saying that this spray gun allows the application of all modern paint systems – including waterborne paints –.

## **Ergonomics**

With its new, ergonomically shaped handle, the spray gun is perfectly balanced. All adjustment elements can be safely operated even when wearing gloves. Furthermore, the design of the round/flat spray control is geared to the SATAminijet 3000 B. The spray gun is sturdy and long-lasting; the spray fan can be exactly adjusted with a 3/4 turn only.

## **Enhanced durability**

The spray gun body is equipped with a corrosion-resistant chrome surface. The sturdy air cap is made of

chrome-plated brass; paint needle and fluid tip are made of tempered stainless steel. The trigger protects the paint needle from overspray during painting, thus prolonging the lifetime of the paint needle sealing. The air piston rod has been especially reinforced. All these features result in an extended spray gun lifetime.

## **Large QCC cup connection**

The SATAminijet 4400 B allows the use of all three RPS cup sizes with no adapter necessary. Furthermore, the large connection makes the cleaning of the material passages extremely safe and easy.

## **SATAminijet small size - big performance**

- For small surfaces and areas of difficult access
- HVLP and RP nozzle sets
- Special SR nozzle sets for the smallest spot repairs (Spot repair)
- New ergonomically shaped handle
- Easy cleaning and maintenance

- Large cup connection QCC for all RPS cup sizes
- Highly flexible in terms of atomization pressure and spray distance

# The SATAminijet 4400 B – User friendly features

Sturdy air cap made of chrome-plated brass.  
**New:** Quick thread (only 1 1/4 turns) allows easy cleaning

Fluid tip and paint needle are made of corrosion-resistant stainless steel

**New:** Fluid tip sealing requiring minimal cleaning effort and safe color changes

**New:** Reinforced air piston rod

Low-maintenance, self-adjusting air piston and paint needle seals. **New:** Paint needle can be easily fitted and removed

Trigger with paint needle protection for an extended lifetime of the paint needle packing

Easy to clean, corrosion-resistant chrome surface

**New:** Ergonomically shaped handle

**New:** Large OCC connection allows the use of all cup sizes – no adapter required – and allows easy cleaning of the material passage

Hook for convenient storage

Adjustment elements can easily be operated when wearing gloves:

**New:** Handy material flow control with quick thread

Air micrometer for high-precision adjustment of the atomization air. Digital pressure display when using SATA adam 2 (optional)

**New:** Easy operation of round/flat spray control: Switching between round and flat fan can be effected with a 3/4 turn only

For the convenient identification of your spray gun.

**New:** Color code can be exchanged without using a tool

## Two ways to reach a perfect result: **HVLP** and **RP**®

**HVLP:** Due to the low pressure technology, SATAminijet 4400 HVLP and HVLP SR spray guns achieve especially high transfer rates.

**RP:** The optimized high pressure technology now also allows maximum work speed with the SATAminijet 4400 RP and RP SR.

Both versions meet highest requirements for mirror finishes, while far exceeding 65% transfer efficiency rates in accordance with VOC legislation.

## SATAminijet 4400 B - what nozzle set is suitable for which application?

Material or application, resp.	HVLP Standard	HVLP SR	RP Standard	RP SR
<b>Vehicle painting</b>				
Filler	★★ 1,1	★★★ 1,2/1,4	★★★ 1,4/1,6	★★★ 1,2

★★★ Perfectly suitable for nozzle set x,y

★★ Well suitable for nozzle set x,y

★ Suitable for nozzle set x,y

Important: Please observe the technical data sheets of the paint manufacturer

### HVLP and RP nozzle sets

With its standard HVLP and RP nozzle sets, the new SATAminijet 4400 B can be used in industry, craft and design when it comes to application on smaller surfaces or areas of difficult access.

### SR nozzle sets for spot repair

The SR nozzle sets (now also available as RP version) are perfectly suitable for spot repairs. Compared to the standard nozzle sets, they feature a wide spray fan with wide-stretched core area; color deviations, and so-called "cloudiness" can be easily avoided.

### Fan Pattern Comparison\*:

#### 1.1 HVLP (at 29 psi)

Spray distance 5-6 inches

#### 1.2 HVLP SR (at 29 psi)

Spray distance 5-6 inches

#### 1.6 RP (at 35 psi)

Spray distance 6-7 inches

#### 1.2 RP SR (at 35 psi)

Spray distance 6-7 inches

Standard nozzles with wet, compact core. SR nozzles with wide-stretched core.

RP / RP SR: air consumption at 35 psi: 7 cfm

## Accessories:

### Glass cup kit

for easy paint supply as well as  
quick color changes.  
25 ml glass cup (5x) with ...  
... closing lid

**Art. No. 58164**

... plug-in lid

**Art. No. 53033**

**Plug-in cup connection**  
with QCC  
**Art. No. 200220**

### SATA®RPS™

Replaces the reusable cup and fits  
without adapter. Reduces cleaning  
efforts and saves solvents.  
Sizes: 0.3 l, 0.6 l and 0.9 l

### SATA design set with SATAMinijet 4400 B

#### HVLP 1.0

and useful accessories for design painting  
beginners:

- 125 ml QCC cup
- 2 plug-on glass pots 25 ml and 3 glass  
pots with blank lid
- 2 m air hose
- Cleaning and sealing kit
- Tool kit

**Art. No. 198382**

Further useful accessories like air hoses, breathing protection equipment, compressed air filters etc. are available from your  
SATA dealer.
