

LPH-80

Compact HVLP Gravity Spray Gun

- Spray pattern ranges from 1.6 inch round pattern to a full 5.5 inch fan pattern, making the LPH-80 perfect for coating small pieces, spot repair, blending, shading, and touch-ups
- Lightweight and compact, the LPH-80 is great for small surfaces and tight spaces that can be difficult with full size guns
- Using only 1.8 cfm at 13 psi, this low-air-consumption gun provides high atomization with precise control of the spray pattern with very little overspray
- Optional E4 air cap creates a wide, flat pattern with fine atomization
- Can be used with the 3M PPS System, 150 ml aluminum gravity feed cup or with a PC-18D pressure pot (using special fittings)
