

Basecut

Basecut – Mirka standard quality and performance

When economy and efficiency are essential, Mirka's Basecut is the clear choice. This tough abrasive is dependable over a long lifespan in a variety of applications, including sanding of wood and composites. A high initial aggressive cut is just one of the performance characteristics that increase productivity for your projects.

FEATURES AND BENEFITS:

- Economical and efficient
- Useful for a variety of applications
- Dependable over a long lifespan
- High initial aggressive cut

Packages will be marked for a limited time.

22-580-XXX	20-580-XXX	Basecut 2.75" x 75' PSA	P80 - P400 Grit

TECHNICAL SPECIFICATIONS

Grain	Aluminum oxide
Color	White
Backing	D-paper/C-paper
Bonding	Resin over resin
Grit Range	P40 - P800
Coating	Semi-open

APPLICATIONS:

Automotive Refinishing • Wood Finishing • Marine Finishing

New + Improved Mirka® Basecut

- Same grits and formats → No application changeover
- Improved grain → Better cutting performance
- Heavier paper → Longer lifespan
